# Older Versions of Painting Programs:

Painting with liquid substances on a flat ground had limited possibilities...

Painting with a brush or any physical tool slowed time down. It relaxed and calmed. Doing anything repetitive is just that. However, in this fast paced world we now live in, anything is possible and anything should be possible. Whatever that does not wish to "catch up" with the times may be left behind as the us rs of this program continue on their tang ntial trajectory into the farther r aches f reason g. We lie e h t
